Stephanie, in the recent CWCM data set received from CPG there were new stream codes, listed in the table below with a status of "new". We can translate a few of the codes but I would prefer to have the CPG provide the stream names that are associated with the new codes.

Thanks

The two data sets of 2012 CPG CWCM have been loaded successfully. Although there were couple of commit errors and those were eliminated by adding 8 new codes to rt_stream table in the database. I believe some of them are abbreviations of the existing codes. Please review them and let me know then I can fix them in dt_location table. Here are the existing and the new stream codes:

stream_code	stream_name	remark	Status
DUNDEE	Dundee Canal	Existing	
PASSAIC	Passaic River	2030103005	Existing
PR	Passaic River	2030103005	Existing
SADDLE	Saddle River	2030103006	Existing
SECOND	Second River	34006651	Existing
THIRD	Third River	2030103567	Existing
UNNAMED	Unnamed Creek		Existing

3R	2012 CPG CWCM Sampling		New

AK	2012 CPG CWCM Sampling	New

HR	2012 CPG CWCM Sampling	New
